**Posted December 10, 2025**

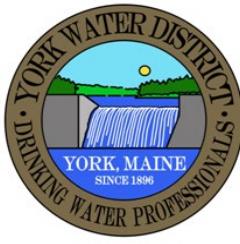

LEGAL NOTICE – The monthly meeting of the York Water District Board of Trustees will be a “hybrid meeting” held remotely and in-person at 2:00 pm on **Wednesday, December 17, 2025**, as per the district’s meeting policy. YWD meetings are open to the public. For members of the public that wish to participate remotely, please send a request to [customerservice@yorkwaterdistrict.org](mailto:customerservice@yorkwaterdistrict.org) by 1:00 pm on the day of the meeting or attend in person. Staff will provide an invite by email ten minutes prior to the meeting.

**AGENDA**

1. The President will call the meeting to order.
2. See what action the Board will take after a review of the minutes of the Board Meeting held on November 19, 2025.
3. See what action the Board will take after a review of the minutes of the Budget Workshop held on December 8, 2025.
4. Invitation for Public Comment.  
*Comments by everyone will be limited to 3 minutes. All comments will be directed to the Board President and are required to be civil, respectful, and relevant to the York Water District. For those who were not provided an adequate opportunity to provide oral comments, they are free to submit written comments. Those comments should be sent to [customerservice@yorkwaterdistrict.org](mailto:customerservice@yorkwaterdistrict.org)*
5. The Financial Manager will present the Board of Trustees with monthly budgetary reports and income statements for review and discussion.
6. See what action the Board may take on the 2024 Audit Results & Audited Financial Statements.
7. See what action the Board will take on the proposed 2026 Capital and O&M Budgets.
8. Staff will provide an update on District operations.
9. Now that the mandatory EPA Lead Service Line Inventory is complete the Trustees will select one raffle winner to receive an apple watch.
10. General Discussion
11. Adjourn.

Respectfully Submitted,

Donald D. Neumann, Jr.  
Superintendent

## November Meeting Minutes

The York Water District Board of Trustees monthly meeting held on Wednesday, November 19, 2025, was in-person and through remote conferencing as allowed by the District's remote meeting policy.

President Stephen Rendall called the meeting for an executive session to order at 1:00pm. Others present were Treasurer – Russell Peterson, Clerk - Richard Leigh, Trustee Richard Boston, and Superintendent Donald Neumann.

A motion was made by Trustee Boston and seconded by Trustee Peterson to go into Executive Session to discuss Personnel related matters – Pursuant to MRSA Title 1, Section 405.6(A). Re: Consider establishing COLA for 2026 and MRSA Title 1, Section 405.6 (C) a potential land purchase.

A motion was made by Trustee Boston and seconded by Trustee Peterson to leave Executive Session at 2:00pm. It was voted unanimously.

President, Rendall called the regular meeting to order at 2:05 pm. Also present were Assistant Superintendent – Noah Emery, Financial Manager – Patrick Desrosiers, and Resource Protection Manager - Zachariah Mein, General Foreman – Larry Graham, and Financial Assistant – Shelley Kimball.

**See what action the Board will take after a review of the minutes of the Board Meeting held on October 15, 2025.**

On a motion made by Trustee Boston and duly seconded by Trustee Leigh, it was voted to accept the Minutes of October 15, 2025, Board Meeting. **4-0 vote with Trustee Marshall abstained due to not being a member at the last meeting: Motion Passes.**

Public Comment.

Timothy Gill partner of Runyon Kersteen Ouellette provided an overview of the Districts 2024 Financial Audit. Tim explained that they provide an opinion on whether all financial statements are fairly stated in all material respects. He explained that “fairly stated” in all material respects because they do not test 100% of all transactions; they do sample base testing. The other reports required by government auditing standards (GAS), reported no material weaknesses, no significant deficiencies, and no comments to correct before the next audit. Tim went over the District’s financial statements showing a comparison of current to last year, net position, current assets, retained earnings, long term debts, revenue, liabilities, capital assets, future development, expenses, and depreciation.

Tim did recommend that the District should review the current Electronic Use Policy and make updates to include the new AI Technology.

Trustee Rendall recommended that in the future a pre-meeting with all Trustees to go over the audit before having the Auditor do their presentation. It was the consensus of the Trustees that they were all in agreement.

**The Financial Manager provided the Board with monthly budgetary reports and income statements for review and discussion.**

The revenue for October 2025 is \$60,128 over projected. The O&M budget for October 2025 is \$9,161 over projected. The YTD revenue for 2025 is \$125,293 higher than projected. The YTD O&M Budget for 2025 is \$102,354 higher than projected. Accepted as presented.

The Financial Manager provided a preliminary draft budget that will be fine-tuned in preparation for the Budget Workshop. A Budget Workshop was scheduled for December 8, @ 2:00pm. Don will send out the invite.

**See what action the Board may take regarding a COLA adjustment to the approved pay scale for the 2026 calendar year.**

On a motion made by Trustee Boston and duly seconded by Trustee Peterson to make a 2.8% COLA adjustment to the approved pay scale for 2026 calendar year. **5-0 vote: Motion Passes**

**See what action the Board may take regarding a potential land purchase.**

No action taken.

**See what action the Board will take regarding the adoption of a resolution to join MMA's Worker's Compensation Safety Incentive Program.**

Recently the District requested proposals for our Worker's Compensation Insurance through MEMIC and MMA. In reviewing the proposals management felt that MMA offered the District other opportunities that MEMIC did not offer. If the Board adopted the MMA Worker's Comp Safety incentive program resolution, the District would qualify for a 10% discount and the opportunity to apply for up to \$6,000± in safety grants. It was management's recommendation to sign with MMA.

On a motion made by Trustee Leigh and seconded by Trustee Marshall, it was voted for by the Board to adopt the resolution as presented to join the MMA's Workers Compensation Safety Incentive Program. **5-0 vote: motion passes**

**Bangor Resolution**

Don presented the Board with the Bangor Savings Bank Resolution to update signers on the account. Changes were removing Trustee Richard Boston and adding Trustee Rendall and Trustee Peterson as new signers on the account. Resolution was adopted as presented.

**See if the Board will appoint Assistant Superintendent Noah Emery as an alternate on the Board of Directors of the Southern Maine Regional Water Council.**

On a motion made by Trustee Peterson and seconded by Trustee Leigh the Board appointed Assistant Superintendent Noah Emery as an alternate Board of Directors of the Southern Maine Regional Water Council. **5-0 vote: motion passes**

Staff provided an overview of recently passed legislation LD 1829. The goal of LD 1829 was to address Maine's significant housing shortage by making it easier for building more housing. We anticipate there will be many requests to add units to existing parcels.

Larry explained in the last month the crew installed or split existing services to accommodate ADU's being constructed. Per our Terms & Conditions each ADU requires a separate service and water meter. The law has created several challenges for the town and municipalities.

**See what action the Board may take on a proposal to NOT allow future lawn irrigation systems to be installed until an additional source of water supply is developed and operational.**

Superintendent asked that this item be removed from the agenda.  
No action taken.

**Staff will provide an update on District Operations:**

Staff provided the Board with updates for the Month of October. Detailed information can be found in the October Newsletter.

**See if the Board will consider closing the District offices on December 24<sup>th</sup>, 2025, at noon.**

On a motion made by Trustee Peterson and duly seconded by Trustee Leigh it was the consensus of the Board to close the District at noon on December 24<sup>th</sup>, 2025. **5-0 vote: motion passes**

General Discussion:

Trustee Peterson expressed that he was pleased with the District participating in several community events such as the Festival of Lights and Fostering of Trees. He said the effort did not go unnoticed.

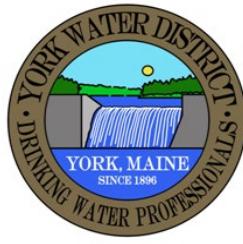

The meeting adjourned at 4:11 PM.

Respectfully Submitted,

Richard Leigh  
Clerk  
York Water District

## December Budget Workshop Minutes

The York Water District Board of Trustees Budget Workshop was held on Monday, December 8, 2025, and was in-person and through remote conferencing as allowed by the District's remote meeting policy.

Attendance: President – Stephen Rendall, Treasurer – Russell Peterson, Clerk – Richard Leigh, Trustee Richard Boston, and Trustee – Mary Marshall. Staff present Superintendent – Donald Neumann, Asst. Superintendent – Noah Emery, Financial Manager – Patrick Desrosiers, Resource Protection Manger – Zachariah Mein, Foreman – Larry Graham, and Financial Assistant – Shelley Kimball.

New Business – Appointment of Temporary President: Due to a schedule conflict of President Stephen Rendall and he needed to attend remotely, a motion was made by Trustee Leigh, seconded by Trustee Peterson, to formally appoint Trustee Richard Boston to serve as President pro-tem for the duration of today's meeting. The motion was unanimously approved. Richard Boston assumed the chair.

Acting President Richard Boston called the meeting to order at 2:02 PM.

The Financial Manager presented the Board of Trustees with the proposed 2026 Capital and O&M budgets. Staff provided an explanation on all Capital items requested.

Staff discussed future Capital Projects and the impact on rates regarding bonding funds for the projects. The draft Cost of Service Study was discussed, this will help us decide if rates are allocated equitably, and then how to implement the changes needed. Patrick is working on an update to our System Development Charges (SDC), which has not been done since it was implemented. This discussion was to help Staff and Trustees strategize for the future and direction to best serve the town. There will need to be several workshops as each item develops.

No action taken.

**General Discussion:**

A Trustee/Employee holiday luncheon is scheduled for Wednesday, December 17<sup>th</sup> at 1:00 PM. The Lead Service Line Inventory is complete, and the District agreed to raffle off the 2<sup>nd</sup> apple watch. As before the Grinch will do the drawing at the December 17<sup>th</sup> Trustees Meeting.

The workshop adjourned at 4:05 PM.

Respectfully Submitted,

Richard Leigh  
Clerk  
York Water District

## TREATMENT REPORT

By: Brian McBride

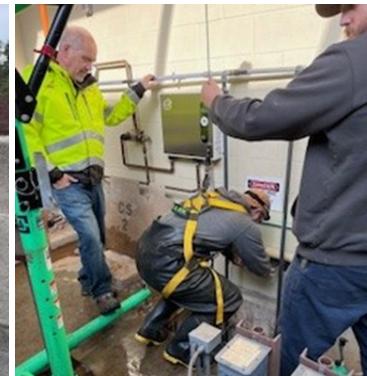

The precipitation for November of 1.75 inches was the second lowest since we began keeping records in 1992, with 2013 being the lowest at 1.54 inches. Consequently, Chase's Pond remains at drought levels.

This month, operators performed a dam inspection on Chase's Pond Dam. Dam inspections are performed four times per year and are part of compliance with the Maine Emergency Management Agency. The inspection begins at the Maine Turnpike, inspecting the culverts and box drains for any blockage, and makes its way up the Cape Neddick River, checking along the way for any erosion or obstructions. We then make our way up to Little Dam, checking for settling, cracks, or spillway obstructions, and finally making it up to the earthen dikes, both north and south. The north wall and south wall are checked for seepage, cracks, and any signs of instability. Finally, the spillway is both visually and physically examined for signs of deterioration and for sluice gate operations.

Billing	4

This month, operators performed a dam inspection on Chase's Pond Dam.

Also this month, the operators cleaned the screens at Chase's Pond Screenhouse. These screens filter out debris, such as leaves and small items, that could cause flow from the pond to the treatment plant to be inhibited. There is an additional eel screen that needs to be scrubbed clean that catches anything that gets by the travelling screens. Cleaning these screens also gives the operators an opportunity to put into

practice their confined space tools and training and ensures a steady flow of raw water to the treatment plant.

## DISTRIBUTION REPORT

By: Larry Graham

As with October, the first half of November continued to be very busy with the remaining construction related installations for the season. For the last eight years, we have set a deadline for these installations around the middle of November. This allows the crew to wrap up District projects as well as prep for winter.

Between November 1<sup>st</sup> and November 13<sup>th</sup>, the crew split two different one-inch services and installed plastic meter pits on each to serve two new ADU's. They also installed one new one-inch service for a new home on York Street and installed a plastic meter pit on an existing service to serve the existing home with year-round service after the owner completed their seasonal conversion process with the Town. Additionally, we worked with a customer on Sand Piper Run who already had year-round service from Beacon Street but needed to install a meter pit as a result of a major renovation. We suggested that they solicit their neighbors who were all seasonal customers off of a shared line to see if they were interested in being involved with the project. Two other residents bought into the project allowing them to have their own say on when they are turned on and off each year. This also allows them to go annual in the future if the town permits it with their new year-round water lines that were installed to their homes. Four new one-inch taps were installed as well as a four-foot concrete meter pit. The existing annual customer decided to run a future for an ADU at the same time. These group projects with neighbors always result in great savings for each involved.

The crew also worked to prep and pave the two driveways at the Mt. Agamenticus tower site. This project was supposed to be completed last year but days before paving was to be complet-

ed, they closed the paving plants for the season. This is a great improvement as plowing will be much easier and the snow will melt better with the sun, reducing ice buildup.

**The crew worked to prep and pave the two driveways at the Mt. Agamenticus tower site.**

A six-inch service was installed to serve a new multi-unit building at 294 York Street. This service was split at the property line allowing for a four-inch valve and service to supply the domestic water to the building, as well as a six-inch valve and service to supply the fire service. Both service lines enter into a utility room where the fire suppression system will be built, and the four-inch domestic service will be split into individual metered services for each unit. The District inspects the installation of these services on private property at the expense of the owner to ensure the material used and installation meets our specs.

**Fire and domestic services at 294 York Street.**

## RESOURCE PROTECTION REPORT

By: Zachariah Mein

Attendants for the York Land Trust Hike.

For me, November was a big month for community outreach. This started with the York Land Trust Hike, I represented both York and Kittery Water Districts and led the hike through the watersheds which made up the bulk of the seven-mile hike. Starting at McIntire Highland and hiking to the summit of Mt. Agamenticus, we had a decent sized group of people considering the weather was cold, windy, and wet. The hikers had a lot of great questions about the trails and the watersheds, and I took the opportunity to explain the practices we use to manage the watersheds prioritizing water quality.

The intern made it to our quarterly safety meeting where we were able to go over our latest safety inspection as well as our process in reviewing and creating new policies. This year the District participated in the Fostering Trees event, contributing a tree with a rain barrel and various other gift cards and water conservation items. Charlie, Andrew, Shelley, Thomas the intern, and I set up the tree while Todd did a lot of the coordinating but could not make it for the tree set up.

Besides outreach, most of November has been spent on preparing for the budget and planning next year's projects. There has been continued preparation for the cabin removal out of the Rich-

ard property. We have looked at a variety of options to remove the cabin and clean the area while trying to keep costs manageable.

For the second year the District participated in the Fostering Trees event.

## GIS REPORT

By: Todd Hill

During the month of November, I collected several new water system installations before the November 14<sup>th</sup> deadline, starting with 25 Lobster Cove Road and 16 Zoes Way. Both had new one-inch plastic meter pits installed, while existing one-inch water services were already in place. Construction continued at 294 York Street where a new six-inch fire service line and a four-inch domestic line was installed and the existing one-inch water service was abandoned at the water main. A new accessory dwelling unit (ADU) was built at 1 Abattoir Drive, which required the installation of a separate water service. A new one-inch water service and a three-quarter-inch plastic meter pit was installed to serve the ADU. Additionally, one of the newest buildings at The Grand View Hotel at 800 York Street received a new one-inch water service installation. Sandpi-

per Run, located off Beacon Street, saw the installation of a four-foot concrete meter pit along with four one-inch water services—two for 3 Sandpiper Run and the other two for 8 and 10 Sandpiper Run. To serve the main house and ADU at 122 Long Sands Road, the existing water service was split into two one-inch service lines, and a one-inch plastic meter pit was installed for the main house. All water system features were collected, updated, and added to our mobile mapping system.

The District's second year participating in the Festival of Fostering Trees was another success, with more donations than last year and additional staff support. The tree looked beautiful, and feedback from people I spoke with was very positive. Continuing the holiday tradition, I also contributed to the District's second-year float entry in the Festival of Lights Parade. The Grinch and two elves helped bring Christmas cheer while sharing important water facts with the community.

Using GIS, I worked on a watershed map requested by Zach, creating a simplified version of the existing map for the State. This map displayed major trails for both the York and Kittery Water District watersheds, ATV trails, and all gates for both areas. I also ordered aluminum sign blanks from Vulcan Signs for new set of watershed signage that Zach and I have been working on.

After a month with the town's new digital permitting system, I believe it represents a positive step forward, making it easier to review and sign building and plumbing permits and the ability to upload applications directly to the permit's attachment section. This will definitely be saving significant time.

Finally, I had the opportunity to work with Thomas Capano, a high school senior intern selected to work with us and York Sewer. I provided an overview of GIS and demonstrated how the District uses it. We also spent time in the field reviewing the GPS receiver and how water utility features are captured and brought back into the office for editing and updating.

## WELLNESS REPORT

By: Karen Hale

### Staying Ahead of Stress During the Holiday Season

Holiday stress can cause anxiety, fatigue, and frustration. This can stem from the pressure of gift giving, hosting events, and family dynamics. To cope with holiday stress it is important to set realistic expectations, have a schedule for events and obligations, and stick to a budget.

Try to stick to your routines and healthy habits as much as possible by eating healthy meals, getting proper sleep, and regular physical activity. Learn to say NO, if your holidays are filled with the hustle of guests. You do not need to do everything for everyone during the holiday season. It is important to acknowledge your feelings, not every moment might be joyful and that is okay.
